## **TRIAL RESULTS SHOW SIGNIFICANT GAINS IN OFFICE 365 USAGE WITH NULIA WORKS**

### **Nulia Works Platform Digitally Enables Obelisk Users to Increase Teamwork with Office 365**

**Eugene, Ore. – August 6, 2019** – Nulia is pleased to share the results of a Microsoft-funded trial project conducted with Obelisk, a MJ Flood Technology customer. The Nulia Works platform was used by 25 Obelisk employees charged with building their teamwork skills using the Office 365 Teams, SharePoint, and OneDrive applications.

Over a 30-day period, Obelisk saw significant improvement in their employee's teamwork skills using Office 365.

**175%** increase in active Teams users

**300%** increase in Teams usage

**20%** increase in SharePoint usage

**13%** increase in OneDrive usage

The Nulia Works platform guided Obelisk users with data-driven insights to provide personalized productivity skill development, engaging them to adopt lasting behavioral change in their natural flow of work. Using the Nulia Works teamwork outcome to meet Obelisk's unique business objectives, Obelisk saw considerable improvements in communications, file sharing, and collaboration among their employees. Nulia Works unlocked the value of teamwork across the Office 365

suite. As a result, Obelisk is expanding the Nulia Works teamwork outcome to all departments and employees.

“We’re very pleased to work with Microsoft and MJ Flood Technology to help Obelisk unlock more value from their Office 365 investment” says Steve Zimba, CEO and co-founder of Nulia. “By helping Obelisk’s employees go way beyond traditional training, we are thrilled to see them embrace our doing approach, developing very valuable team work skills in their natural flow of work. As Obelisk continues to expand the use of Nulia Works, we are excited to see what they achieve with Office 365 in the future.”

“Nulia Works was easy to implement and provided our employees a better way to increase their team work skills, providing an emphasis on doing and not simply learning,” says Obelisk Group IT Director Claire Markey. “Getting our employees to become better team workers is one of the main reasons we chose Office 365, and with Nulia Works we now have a solution to help our employees sustainably use the full suite of Office 365 team work applications. Ultimately Nulia Works gives us a greater return on our Office 365 investment.”

### **About Nulia:**

Nulia is a pioneer in Digital Enablement, getting users using their digital productivity suites. Our Nulia Works platform is the first of its kind in the SaaS productivity suite industry, supporting a system of measurement, personalization, and engagement guiding users to attain, maintain and use new digital productivity skills.
